

## Java

```
class Solution {  
    public int maxDistance(String moves) {  
  
    }  
}
```

---

## JavaScript

```
/**  
 * @param {string} moves  
 * @return {number}  
 */  
var maxDistance = function(moves) {  
  
};
```

---

## TypeScript

```
function maxDistance(moves: string): number {  
  
};
```

---

## C++

```
class Solution {  
public:
```

```
int maxDistance(string moves) {  
  
}  
};
```

---

## C#

```
public class Solution {  
    public int MaxDistance(string moves) {  
  
    }  
}
```

---

## Kotlin

```
class Solution {  
    fun maxDistance(moves: String): Int {  
  
    }  
}
```

---

## Go

```
func maxDistance(moves string) int {  
  
}
```

---
